Unraveling the Mystery of School Finance

For Superintendents and Top Administrators

An Interactive Two-Part Webinar Series

Presented By:
School Services of California Inc. and FCMAT

ABOUT THE WEBINAR

Educational leaders in California have an opportunity to leverage our state funding for the programs and services that we value most at the local level. The supplemental and concentration grant funds can have broad application to support our children with the greatest needs. And, after several years of significant funding increases, today's decisions are even more critical as revenues have flattened and resources for ongoing programs have become scarce, not to mention the reintroduction of cash deferrals. One-time federal funds are a temporary respite, but must be used with care. Combining all of that with school closure and re-opening as a result of COVID-19, local agency finances are more challenging than ever.

The leaders who have the greatest success with this current funding model are the ones who best understand its challenges and opportunities. The purpose of this webinar is to take the complexities of school finance and distill them so that superintendents and other top administrators of local educational agencies (LEAs) can use financial information to make improved policy decisions. With many decades of experience in school agency finance and governance, top experts from the Fiscal Crisis and Management Assistance Team (FCMAT) and School Services of California Inc. (SSC) have teamed up to bring this must-attend event to school agency nonfinancial administrators.
